Introduction to Moneysmart

Moneysmart, from the Australian Securities and Investments Commission, gives consumers trusted and impartial calculators and guidance for everyday money decisions.

Moneysmart has developed resources to help newly arrived migrants understand how money works in Australia. These resources are translated into 10 languages and explain core money concepts, including:

- Money and working in Australia
- Budgeting and saving
- Spending and paying bills
- Credit and debt
- Superannuation
- Insurance
- Scams
- Tax in Australia

Help empower your local communities by sharing the resources in this stakeholder pack with your networks.

What you can do to help

More translated resources

Moneysmart's Simple money manager is a free online budgeting tool to help people who speak languages other than English to manage their money day-to-day.

The tool lets users look at money coming in (income) and going out (expenses), so they can direct their money to where it matters most.

The simple money manager is available in English and eight other languages. These include established communities (Simplified and Traditional Chinese, Italian, Arabic, Vietnamese) and recently arrived groups (Somali, Dari and Sudanese Arabic).

The tool includes in-language audio to explain each budget category: [Simple money manager - Moneysmart.gov.au](https://www.money.gov.au/1-10-11-simple-money-manager)
